AMERICA'S LEADER IN SAFETY, PERFORMANCE & STYLING.

Since the first Tomberlin® street-legal, Low-Speed Vehicle (LSV) was built, we've remained committed to designing vehicles with an emphasis on safety, performance, and styling while challenging the traditional conventions of what is expected in a Personal Transportation Vehicle (PTV). **We Go Farther.**

E-MERGE LXR

tomberlinusa.com

Step up, and into luxury with an E-Merge LXR. Luxurious Cool Touch upholstery throughout, standard metallic and pearl paints, an industry exclusive Bluetooth audio headliner, and premium steering wheel are just the beginning. For a smooth and responsive ride, the LXR comes with 14-inch alloy rims with steel belted radials. Also, this model features our MX folding rear-facing seat and Evolve L125 lithium battery package for extra-ordinary range and low maintenance.

We Go Farther by including features like our Smart Park™ automatic parking brake, locking steering column, and unique ignition key. Plus, a powerful 450-amp drivetrain, responsive handling with effortless power steering, and 4-wheel hydraulic braking system give a level of performance not found in other golf or LSV vehicles. Finally, we surround you with styling and features expected only in an automobile with the convenience, freedom, and fun of a neighborhood electric vehicle.
